
Student Research Conference 2025

The Student Research Conference of the Third Faculty of Medicine, Charles University will take place on **Tuesday, May 27, 2025**. Traditionally, it will consist of lecture and poster sections. An expert commission will decide on the division of contributions into sections.

Combinatorics

Department of Mathematics
Introduction

Combinatorics is a branch of mathematics that deals with the study of finite or countable discrete structures. It includes topics such as counting, enumeration, and the study of combinatorial objects like graphs, permutations, and partitions.

About Us - D and C

The Department of Mathematics and Combinatorics is dedicated to providing a high-quality education in mathematics and its applications. We offer a range of courses and research opportunities for students and faculty alike.

Abstract submission

The system for inserting abstracts **is currently open** on the SRC website (svk.lf3.cuni.cz). In order to be able to divide the contributions into individual sections, no contributions will be accepted after the deadline for the submission of the abstract, which is set for **April 13, 2025**.

Whoever does not submit the abstract by this deadline, will not be allowed to participate in SRC 2025 and will therefore not receive credit for enrolled SVA!

For more information, follow the website svk.lf3.cuni.cz , where you will find more detailed instructions for creating an abstract and current information about the conference.
